

# INSTRUCTIONS

## PTH Hardware - 6'-15' Portable Half Drop and Teardrop

Includes:  
Sectional Aluminum and Fiberglass Pole  
Ground Spike  
Carrying Case  
Graphic

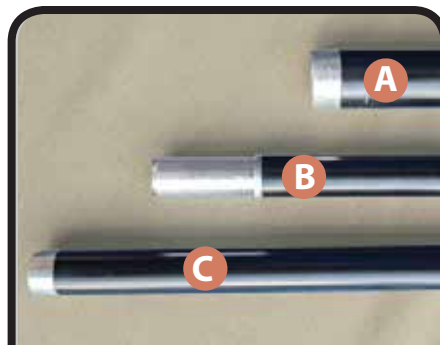

*The number, length and style of sectional pole pieces will vary based on banner size and shape.*

1

Assemble 6'- 12' sectional poles by placing end to end - longest to shortest.

Note: If any sectional poles slide down several inches, then they are upside down.

A

B

C

If you have 15' Hardware, join the 3 largest diameter poles in ascending order of silver tips to black ends.

Example:

A silver tip

B black end

B silver tip

C black end

2

Slide the banner onto the pole via the pole sleeve, starting from the small end.

Note: Be sure to feed the hardware all the way through the sleeve, to the tip of the banner.

3

Loosen the screw of the attachment hook near the base of the pole and slide it towards the loop at the bottom of your banner. Then put that loop into the attachment hook and adjust the hook position to make banner flat (taut). Tighten the screw of the attachment hook to secure the banner.

4

Hammer **taller portion only** of the ground spike fully into the ground. Then insert pole with banner onto peg. For best vertical presentation, check with a level front-to-back and side-to-side.
