

# INSTRUCTIONS

## Mini Teardrop with Clip

Includes:  
Sectional 2-Piece Pole  
Plastic Clip  
Graphic

1

Connect the sectional pole pieces together.

2

Slide the banner onto the pole via the pole sleeve. Take note of the location of tip of pole. Forcing the pole may result in sleeve tearing or tip getting caught. Feed tip the whole way to end of sleeve.

3

Attach the loop at the bottom of the banner to the attachment hook on the clip to secure the banner in place. For a tighter banner use the hook on the opposing side of banner.

4

Squeeze the clamp part of the clip to open it and attach it to a surface.
