

INSTRUCTIONS

Desktop Teardrop Banner

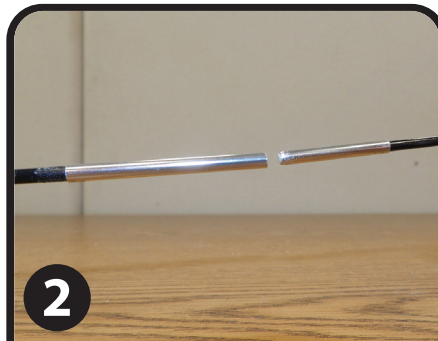

Includes:
Metal post
Weighted screw base
Sectional pole
Teardrop banner graphic

1

Screw the metal post into the weighted screw base by turning the peg clockwise.

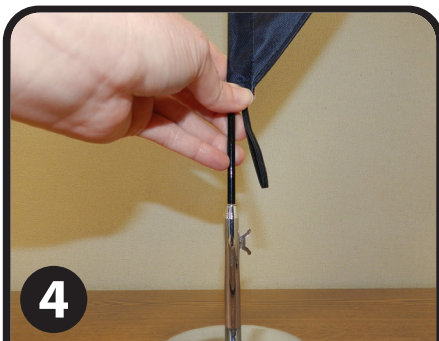

2

Connect the sectional pole pieces together by sliding the metal end of the small pole into the open end of the large pole.

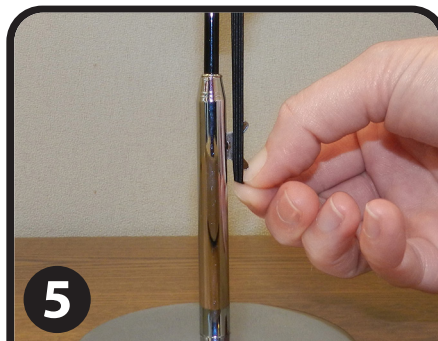

3

Slide the banner onto the pole via the pole sleeve, starting with the rounded rubber tip. Note: Be sure to feed the pole all the way through the sleeve to the tip of the banner.

4

Slide sectional pole into the metal post attached to the weighted screw base.

5

Connect the loop at the bottom of the banner to the attachment hook on the metal post to secure the banner in place.
