Banner

1

Turn the base stand upside down and slot in the 1st base quadrant.

2

Repeat step 1 with the remaining 3 quadrants. Ensure the quadrant plugs are on the upper side.

3

Take the base stand top and slot into the four indents on base quadrant.

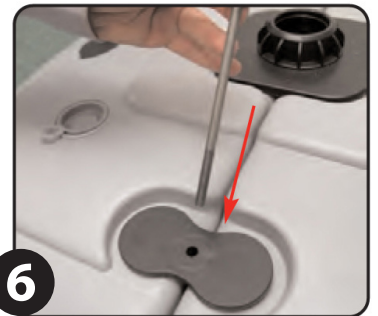

4

Secure the base stand connector onto the base stand thread.

5

Place a base connector (without thread) into the indent of two of the quadrants.

6

Insert a base screw through the connector hole so that it appears underneath.

7

Take a base connector (with thread) and place over the end of the screw underneath the base.

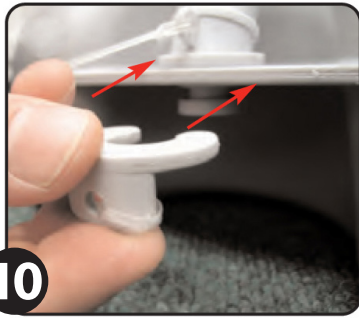

8

Turn the base screw to fasten both quadrants together. Repeat steps 5 to 8 for the remaining base connectors.

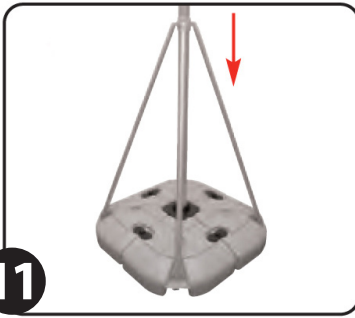

9

Attach the pole stay set to the base quadrants, placing each stay through the corresponding hole on the base.

10

Secure the stays to the base by slotting the locking pin over the stay.

11

Slide the telescopic pole through the hole in the pole stay set.

12

Attach graphics using the clips at the top and side. Raise to desired height.
